

PUBLIC SCHOOLS

Financial aid makes college possible.

Help us make it accessible.

Every student should have the choice to pursue a post-secondary education, but that is not the case. The cost of college and access to courses that prepare students for post-secondary academic success stand in the way for many students. By supporting families in navigating these barriers and pursuing policies that remove them, we can increase the number of students who attend and persist through college and career certification programs. GO hopes to grow our impact throughout the state - ultimately making financial aid accessible to more students and families. With your support, we can increase access to financial aid through:
