Data Point	What is impacting the data?	Strategy/Intervention and Goal	Cost
Example: Attendance rate is currently 86%. School Goal is 94%	Questions to consider: Why is attendance low? Is there a pattern to absenteeism? (certain days of the week, weeks of the month, around holidays) What interventions have already been tried? Which students are we focusing on?	Conduct home visits for top 20 most frequently absent students to better understand what is interfering with consistent school attendance. Goal: Increase attendance in focal group by 20% in the next month
